#### What does our Balance Sheet Training Course course cover?

##### What is a Balance Sheet?

When assessing the health of a company, the first thing you need to look at is the balance sheet. Even if the company is profitable, the balance sheet may tell a different story!

But don't imagine that this will involve you in any dark arts or opaque terminology. It won't.

Understanding the balance sheet is important. When you do, whether as a business owner or accounting employee, you'll discover whether your company (or maybe a competitor!) is in good health -- or needs attention.

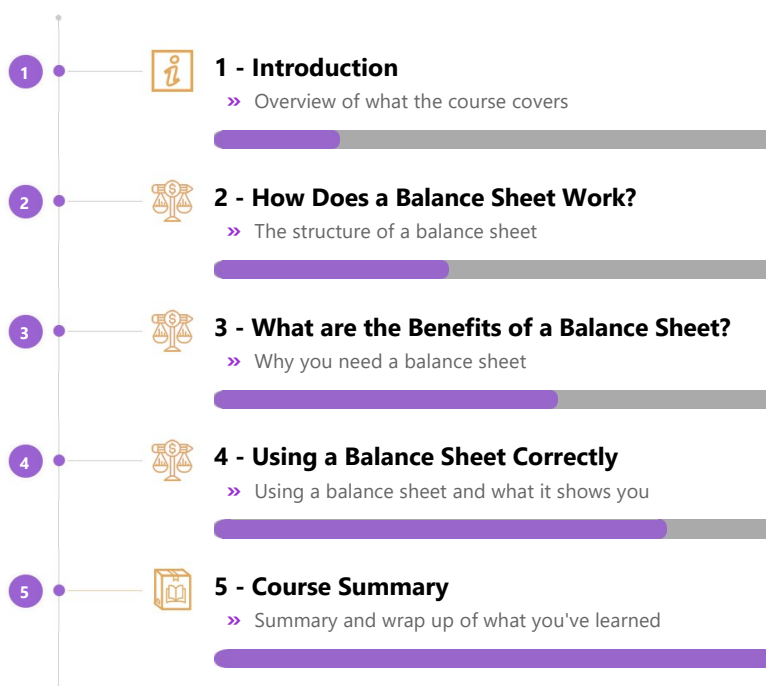

This course shows you how a balance sheet is a simple structure of easily identifiable numbers -- and how they fit together to form a simple, but essential guide to the health of a company.

This Balance Sheet Course skills training course, like all our courses, has been developed over many years of classroom and online delivery. Content has been thoroughly researched and is constantly updated so it's always leading edge. It's completely interactive and is full of practical knowledge and solutions.

Still wondering whether to do the course?

Just think about this: how much would you benefit if you had better balance sheet course skills?
