#### Finance Explained for Non-Finance Managers

##### Understand how financial reports work

This module gives you an easily digestible yet professional guide to how financial reports work.

We don't get into deep analysis, and all terms are clearly explained, so that by the end, you have a great understanding of how things work.

Content covers the basic elements of an organisation's accounts, including how its trading activity is recorded on the Profit and Loss Statement, how those figures are adjusted to reflect the amount of cash generated in the Cash Flow Statement, and how the final numbers appear on the Balance Sheet.

The course will give you a working understanding of financial reports without burying you in technical details.

Watch the modules, revisit them time and again ... and have fun with improving your skills!

## Learning format

The course is offered as follows:

You'll learn using easy-to-follow on-screen videos which you can pause, re-run and revisit as often as you like, and also through interactive content with short quizzes and questions appropriate to the course subject. You also get a comprehensive workbook that you can use to reinforce your learning. The course is arranged into modules, each with several lessons. Refer to the course content for more details on what's covered. This combination of videos and interactive content will enable you to get a thorough understanding of the subject.
