　★ Learn how to build a solid, high-trust foundation for success
✔ Course Wrap Up
　★ Summary and wrap up of what you've learned

What does our Building & Managing Trust course cover?

Building Trust in the Workplace is Your Route to Success

How important is it to have trust in your team?

We'd say, that without trust, your efforts to build a successful team will always fall short of their potential.

But trust isn't a binary choice -- it's not "on" or "off" -- there are degrees of trust, and this means that it can be built, and problems rectified, in a controlled way.

And make no mistake: if you're in charge of the team, responsibility for establishing trust lies squarely with you! So, in order to build a successful team, you need to put trust at the top of your agenda.

Our Building & Managing Trust course will show you how to strengthen, and maintain, trust within your team, to provide a solid foundation for long term success.

This Building Trust skills training course, like all our courses, has been developed over many years of classroom and online delivery.　Content has been thoroughly researched and is constantly updated so it's always leading edge.　It's completely interactive and is full of practical knowledge and solutions.

Still wondering whether to do the course?
Just think about this: how much would you benefit if you had better building trust skills?
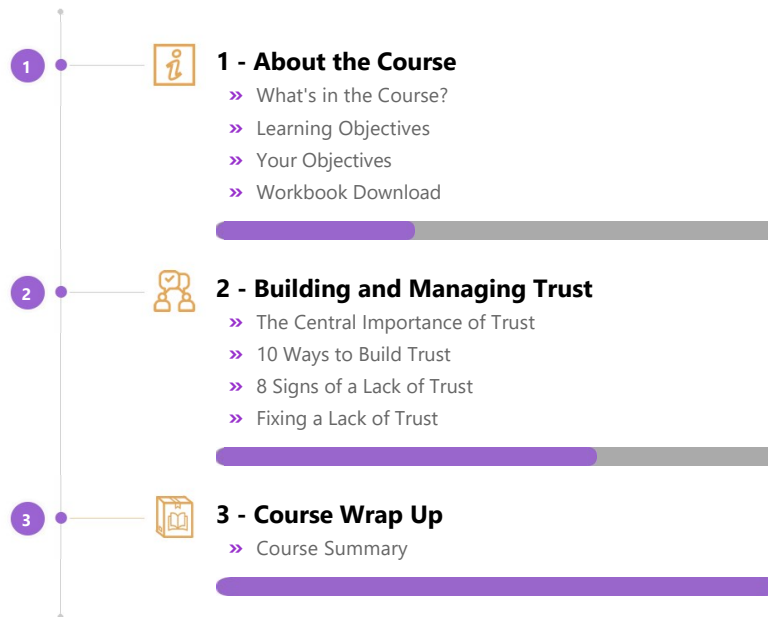

Course requirements

You don't need any prior knowledge or qualifications, though experience of working in a team environment (as a manager or a team member) will be helpful.

Who's this course for?

Anyone who (rightly) understands that high levels of trust lie at the core of a team's success and wants to learn how to create this within their team.

- A final Review Session for you to see just **how far you have come!**

More about the ZandaX Building & Managing Trust course

Learn How to Build Trust in Teams

Learn how to build trust - and detect and deal with problems - for a solid team foundation

Our Building & Managing Trust course is designed for managers who want to build sustainable team success.

First of all we show you how trust improves working relationships -- and results, of course -- in your team.

Then we show you 10 ways you can build trust, with tried, tested and proven methods, taken from real life, not text books!

Next, we highlight eight signs of a lack of trust so you can be ready to spot when things start to go wrong. These are evenly split between signs that your team members may show, and those that you (yes YOU!) may be going wrong.

And we finish with a reflective lesson that gives a few tips on fixing a lack of trust.

If you use what we give you in this course, you'll build a genuine team ethos where people don't just commit to working together, they enjoy it too!

Watch the modules, revisit them time and again ... and have fun with improving your skills!

Learning format

The course is offered as follows:

You'll learn using easy-to-follow on-screen videos which you can pause, re-run and revisit as often as you like, and also through interactive content with short quizzes and questions appropriate to the course subject.
You also get a comprehensive ZandaX workbook and Development Plan that you can use to reinforce your learning.
The course is arranged into modules, each with several lessons. Refer to the course content for more details on what's covered. This combination of videos and interactive content will enable you to get a thorough understanding of the subject.
